

Design *by Wariapendi*

Wariapendi offers design and consultation services for those wanting a beautiful, low maintenance landscapes using native plants.

Native plants have traditionally been viewed as second best when it comes to landscaping and tree planting in the Southern Highlands. Today this is vastly different. Over the last 35 years Wariapendi has turned this notion around. Our latest designs using improved and select native plants are creative and innovative allowing for elegance and sustainability. If you want colour and vitality along with an abundance of native birds in your garden Wariapendi can provide the expertise necessary.

We design to provide positive outcomes for future generations as well as providing lifestyle benefits for the now. Our designs are innovative and creative. When designing new or modifying existing landscapes we incorporate ecological and sustainable principles. We design native gardens that require less maintenance and use minimal inputs.

We believe native landscapes should not only look good, they should be good for the local ecology and for you.

Garden Design & Consultation

We provide three levels of service. Initial discussions with you (over the phone or at the nursery) are required to get a brief of the concept/vision you have and the level of service you require. From there we will meet with you onsite.

Level 1 - Walk and Talk

This service provides you with an experienced horticulturalist coming out to your garden and giving you an assessment of your site and species suitable for it.

Cost - \$150 per hour + travel @ \$120/hour

Level 2 - Garden Design

This service takes a little longer and more thought. This level of service will provide you with a concept landscape design along with plant selection and approximate layout. Allows 2 hours on site along with 1 hour prior to visit to generate a base plan of the property with the design documented by hand on site. On larger sites or more complex design additional time may be required.

Cost - from \$450 (3 hours)

Level 3 - Full Plan & Specifications

This service will provide you with a complete CAD plan with full specifications for plants and other materials along with budget estimates for supply only and for supply and enactment. Suitable for Council DA's, Office of Water or for clients who wish for detailed plans and specifications

Cost - from \$1200 (8 hours)

Any travel time will be charged at \$120/hour.

Rural Property Consultation

Wariapendi offers a service which provides professional advice on how to increase productivity, improve capital value and enhance the lifestyle benefits that living on a rural property provides. Our advice includes how to enact revegetation projects, create windbreaks/wildlife corridors, control erosion, create wetlands and how to manage and enhance riparian zones and any remnant natural vegetation on the site.

Level 1 – General Consultation

We will meet with you onsite to formulate design concepts, approximate plant layout, along with recommended species. During this meeting we will provide you with handwritten documentation and drawings. Generally an allowance of 1.5-3 hours onsite is required but as all properties and needs are different, more or less time may be required.

**Cost - \$150/hour on site
Travel \$120/hour or part thereof**

Level 2 – Comprehensive Property Plan

We will meet onsite and assess your needs and suggest possible areas of improvement and advise ways to increase productivity and the general 'health' of the property. We will give insights into:

- Increasing pasture production by creating windbreaks
- Best ways to manage water quality on the property
- Wind protection and windbreak layouts, shelter for stock, wind protection for house and shed sites
- Paddock layouts
- Managing salinity and erosion issues
- Sustainable gardens for the home paddock

After our initial meeting onsite meeting we will provide a plan outlining areas of improvement. For this service, you should allow a minimum of 2 hours on site plus a minimum of 6 hours for design and documentation back in the office plus any travel

Cost - from \$1200

How much will this cost?

- Our base fee for our consultation service is \$150 per hour
- Travel is charged at \$120 per hour or part thereof.
- CAD generation of landscape plans and other documentation back at the office is charged at \$120/hour.

What area do we service?

Wariapendi is located in the Southern Highlands. We service the Illawarra, Shoalhaven, Sydney Basin, Southern Tablelands and South Coast. If you have requirements outside these areas feel free to contact us.
